LATEST WAR SUMMARY

London, Oct. 1.—A Rotterdam despatch to the Daily News says: Despatches from the south indicate that preparations for the retirement of the Germans have already begun. German troops have been observed coming from the north of France towards Tournaï and Mons, prepared to cover the main army in case of retreat.

A despatch from Ghent to the London Express, dated Wednesday, declares that the Germans have built five heavy pontons bridges across the

river Meuse between Givet and Namur, apparently for the purpose of facilitating their retirement from France. All their wounded, the despatch says, have been removed from Brussels.

Petrograd, Sept. 29, via London, Sept. 30.—Messages from Odessa, describe the Kaiser's agents in Constantinople as using their utmost endeavors to force participation. Over the entire Balkans there is now a feeling of the most extreme tension.

The Mirror Library Club building has been in the hands of the painter this week. W. H. Higgins is wielding the paint brush.

LOCAL AND GENERAL NEWS ITEMS

If you want a good War Map, read THE JOURNAL offer on page 4.

Funeral.—On Lake street, Mirror, a ladies' Basket Coat. Owner may have same by paying for this notice.

MIRROR JOURNAL phone, No. 22.

Owen Cook brought in this week a fine specimen of a bald-headed eagle. It measured over seven feet from tip to tip and was a wand. He will have it mounted.

Dr. J. R. Craig, Dental, of Calgary, will be in Mirror at the Imperial Hotel from Wednesday afternoon, October 7th Saturday afternoon, Oct. 10th.

B. G. Pocock, after having finished his investigations here regarding the Pecking Plant, will leave tomorrow (Saturday) from Alix for Vancouver. Mr. W. MacKirdy will accompany him as far as Vancouver.

From there he will proceed to London, England, via New York. Mr. Pocock, who has spent much time, making himself acquainted with the district, is greatly struck with the prospects of the Mirror district and thinks it should have a very bright future in front of it, and none could wish to see the district prosper more than Mr. Pocock. When Mr. Pocock has completed his arrangements in London, he will return to Mirror and then with the intention of staying for good.

The Patriotic concert, to be given by the Ladies of Mirror on October 6th, should have the unqualified support of every citizen of Mirror and resident of the district. A program of songs, etc., will be provided by local talent, and a dance will follow. Tickets are now on sale at the different business places, and if you have not already bought, do so at once—the proceeds will be devoted to a worthy cause. Don't forget the date, and even if you can't go, help the cause along and buy a ticket.

Last Saturday the young son of Mr. and Mrs. A. J. Cairne had a narrow escape from drowning in the well on their farm. The threshers had been taking water from the well and neglected to cover the opening when through. Shortly after, piercing screams drew the attention of Miss Mable Clarke to the spot, and young Bobby was found hanging by a nail at the top, his body in the well. In falling over the hair on the back of his head had caught on a nail and thus prevented him from dropping down the well, which contained about fifteen feet of water. It was a close shave and Mr. and Mrs. Cairns are no doubt thankful that their son and heir is still able to romp in the back yard.

While returning from Alix Fall Fair last Tuesday, Mrs. B. Conway was thrown from her rig, and besides having a rib broken was severely bruised. The accident was caused by the clip holding the tongue to the axle giving way and causing the team to become unmanageable. Mr. Conway was driving. Pym Bros. brought Mrs. Conway to Mirror and Dr. Meyer was called. She is doing nicely at present.

The Village Council will meet next Monday evening.

Yesterday (Thursday) was the first day of Prairie Chicken and Partridge shooting. The birds are very plentiful.

Several cases of thieving have been reported recently. The culprits, it ought will receive well-deserved punishment.

There will be a public meeting held in the Mirror Library Club building on Monday next, October 5th, at 8.30 p. m. The meeting is called for the purpose of forming a rifle club in Mirror. All those interested in rifle shooting are earnestly requested to be in attendance. The aims and object of the club will be fully discussed at the meeting. Don't forget the date and place.

A. J. Jewell, of Omaha, Neb., who has been visiting his brother D. M. for the past three weeks, has become so taken up with this part of Alberta that he has decided to make it his home in future. His family is now on the road to Mirror, and Mr. Jewell is arranging to buy a farm near here.

Frank Allee, Fred Downswell and Mr. Hoagie went on a shooting excursion on Thursday and brought home some 52 birds in all.

O. C. Smith, of Vancouver, B. C., is staying at Mr. and Mrs. D. M. Jewell's this week, enjoying a chicken shoot.

S. BUFFALO LAKE

Earl Estell and his threshing outfit have been visitors in our district for the past two weeks, and have more cleared up our fields. Considerable delay and lost time for all through the wet soil, but in spite of that drawback, a good clean job was done for all.

Considering the hot season when grain was heading and hilling, the returns furnished our correspondent showed that this locality is hard to beat in any season.

Messrs. Yarrowood and Cruickshank report an average of 27 bushels per acre on a field of 140 acres; J. H. Sorum reports one field of Bob wheat yielding 40 bushels per acre; M. O. Sorum an average of 28 bushels, on 30 acres. Oats are reported to average through the district at 35 to 40 bushels, and some ran as high as 44 lbs to the bushel. Barley late sown was poor, early sown barley doing better and yielding from 30 to 35 bushels per acre. R. F. Hight reports 39 acre field as yielding nearly 40 bushels to the acre; O. J. Sorum reports an average of 37 bushels per acre on his farm south of here. Returns from farms across creek are not received yet, but some good yields also will be heard from next week.

Many are taking up potatoes and report the best yield for several seasons. On every field now, ploughs, discs and harrows are busy early and late, and judging from the care being taken in preparing the land, farmers here intend evidently to work their fields into shape for dry seasons. One field near our township road looks almost as if it had been mowed over with a garden rake. So dry seasons will be a blessing in disguise when they produce a better system of farming.

Our school re-opened under Mr. A. Miller, and is being well attended.

TO EACH AND EVERY MASON RESIDING IN MIRROR AND VICINITY:

The Canadian Lodge, of London, Eng., is asking the assistance of all Masons in the Dominion of Canada towards maintaining a Canadian Volunteer Hospital Contingent, supported by Masons of the Dominion of Canada, having departs in London and Falkenstein.

Jonie Lodge, Alix, makes an appeal to all its own brethren and those living in this district, who are in touch with their own Lodge, to assist in the good work by sending \$1.00 to the Secretary.

Yours fraternally,
H. W. Farnsworth, W.M.
C. A. Bateman, Sec'y.
Alix, Oct. 2, 1914.

Fred Suther, of Prince Rupert, B. C., visited with Mr. and Mrs. D. M. Jewell, last week.

Steps are to be taken by the Alberta Union of Municipalities to get the government to make it necessary for school boards to submit by-laws to the people, when they wish to build new school buildings. The idea is to get the provincial government to change the charters given to school boards so that all matters of expenditures which will add to capital account will have to be endorsed by the people. All of the delegates to the convention held in Courtenay recently stated that they had had trouble with their school boards in this matter.

The trying financial situation the past has worked a hardship on many publishing houses and newspapers. Several in the west have ceased publication entirely, the latest to come to our notice being Alberta Homestead (Edmonton), Strathcona, Plaindealer, Saskatoon Phoenix and the Munson Mail.

"THE RECALL STORES"

What This Means To You

I am glad to have the Recall Store, because there are Seven Thousand Recall Stores now to be found in the United States and foreign countries, and you will always find them the live, progressive, reliable and safe drug stores of their communities. We are called the Recall Stores because we handle the Recall Remedies, a line of preparations that have had an unparalleled popularity. There are more than three hundred separate and distinct Recall Preparations, each guaranteed to give complete satisfaction. If it does not do so, your money is cheerfully refunded. Recall Remedies are potent medicines. They are not secret preparations. The Recall Remedies are made according to formulas gathered from the life experience of hundreds of druggists, improved by experts, made from finest ingredients, in the finest laboratories in the world under the supervision of highly trained chemists. You buy them not only with the guarantee of the factory, but with Personal Guarantees. You will find that the prices are less than those asked for ordinary preparations, often the price is larger. These Remedies have been widely imitated, but never successfully. Buy the genuine and you secure complete satisfaction.

The Golden Girl

By Alice and Claude Askew
Lard, Lock & Co. Limited
Wend, Melbourne and Toronto

(Continued)

The brougham had drawn up to Lady Browne's house, and presently, after the door had been opened in answer to the groom's ring at the bell, a slight girl, with her cheeks rosy and her hair pulled down over her ears, stepped out of the brougham, and, with a look of surprise, she saw the girl who had been waiting for her at the door.

"This is my brother, Leslie," she said to her friends, "I need not introduce you." The girl looked up and with the smile upon her lips she captivated as of old—her eyes as lustrous and full of the joy of life. She was a cream-colored rose in her hair, and her face was a picture of the same fragrant bloom. "The same fragrant bloom," even if her beauty was that of Harold's life. Yet, as she said to herself that afternoon, there was a little more in the girl's face than in the smile of the girl who had been driven into oblivion—and that by Leslie.

Her hands met, and Harold held hers a little longer than was absolutely necessary. "And so you still love roses?" he asked. There was a gleam of surprise in her eyes. "There are some roses which I can never see without thinking of you." And Athina, in her corner of the carriage, smiled with sympathy.

CHAPTER VII. The Old Fascination

Athina had still more reason to be pleased as she saw the girl who had been waiting for her at the door. It was not long before Harold and Leslie were walking on the very best of terms.

There had been some slight embarrassment between them, but now, reaching Covent Garden, but this vanished with the realization that the girl was a Christian name. It was the girl who first made the connection. Harold had addressed her as "Leslie."

"It used to be Leslie," she said. "Have I grown a very old and sedate?" "No, no, no, stand on ceremony."

On the lips of many a girl the remark would have been a laughing matter, but, how, with Leslie, she said so delicately, with a smile, in a manner, that one instinctively forgave her for the little transgression.

There was a something in the way in which she was constantly fascinated. There was an astonishing fascination about her, and it was of the sort that appealed particularly to men.

Harold was quite right when he had mentally set her down as a flirt. It was her nature to be a flirt, and she couldn't help it. She was a woman who admitted it because it seemed to her that it was her nature to be a woman who made use of it. Her. There was, indeed, a good deal of the old-fashioned character there; Harold and her life as a woman were very much the same.

MIRROR, ALTA., OCT. 2, 1914

INCREASING LIVE STOCK PRODUCTION

The outbreak of the war in Europe and the consequent demand which is naturally to be expected for increased exports of meats, finds Canada in a very much denuded condition as regards live stock.

As a result of the removal of the American tariff on cattle a heavy export trade developed to the south. In some districts in eastern Canada, nearly everything has been shipped out of the country, except dairy cows. This export trade, together with many farmers selling their calves for veal, can have but one result in Canada, viz: a greater scarcity of meat than at present exists, even in a normal market.

The meat industry in Canada should not be allowed to dwindle rather, the production of hogs, sheep and cattle on Canadian farms should be greatly increased. To obtain this increase does not mean that farmers should devote their whole attention to live stock. The majority of farmers will admit that with very little extra effort and expense they could increase by several head the live stock on their farms without in any way interfering with their present system of farming.

From reports to the Commission of Conservation, present conditions indicate a world wide scarcity of live stock, with little likelihood of an overabundant market for many years to come. The opportunity for Canadian farmers is therefore apparent. To take advantage of this, farmers should save their heifer calves to produce more cattle, while the others may be turned off, not as veal but as beef.

Expert stockmen advise that there are good times ahead for those raising sheep. The high price of mutton and of wool and the comparative ease with which a flock of sheep may be maintained upon land which is otherwise unsuitable for agriculture, should suggest a great increase in the number of sheep raised by Canadian farmers.

Increased production in hogs can be brought about more quickly than in any other class of live stock, and consequently should receive immediate attention. Animal production on the farm is desirable because it increases the fertility and crop-raising ability of the soil. Good prices are sure to be obtained for any surplus which farmers will have to sell on account of the inevitable shortage of sup-

ply resulting from war conditions in Europe. These two conditions should be an incentive to Canadian farmers to increase their live stock production. A little foresight now, with modern methods of feeding, will make increased production easily possible.

Second Annual Teachers' Convention

The second annual Convention of teachers in the Stettler Inspectional will be held in the Public School, Stettler, on Thursday and Friday, October 8th and 9th, 1914. Following is the program:

FIRST DAY

Morning Session: 9:30-10:30. Enrollment and getting acquainted; Address of Welcome, Mayor M. Gillivray, chairman; President's Address, W. W. Scott; Discussion on Human Nature and other topics led by Inspector Thibodeau; Afternoon Session: 2:00-3:00. Alberta Summer School for Teachers, Miss S. A. Rowe; Penmanship, Muscular Movement, Paper, Mr. J. B. Copeland; Discussion, Miss Sundberg; Mr. McGillivray, Mr. Henry; An Art Lesson Taught in a Rural School, Miss E. Lee; Evening Session: The local staff are preparing a suitable entertainment for the evening.

SECOND DAY

Morning Session: 9:30-10:30. Canadian Civics, N. E. Carruthers. Principals' Luncheon. Healthy Bowels
Rexall Orderlies

Perfect health can only be obtained by keeping the bowels regular. If your bowels do not daily carry away the waste left after the food is digested, decay sets in, producing poisons which are taken up by the blood, frequently resulting in Typhoid Fever, Appendicitis and other serious and fatal diseases. To keep the bowels healthy and regular you must help, not drive, Nature by using Rexall Orderlies which are mild and gentle in their action, producing neither griping, nausea, nor any other discomfort. Rexall Orderlies cannot injure the delicate tissue of the bowels, and, as they do not re-act, it is only necessary to take them for a short time to cure constipation. If after you have tried Rexall Orderlies you are not perfectly satisfied with them, we will return your money.

Sold only at the Rexall Orderlies stores. In every part of the world. In your pocket the boxes, 10c, 25c, 50c.
